

## VICO President's Report 2023

Another challenging year for VICO. Lack of access to CRD parks continues to be an issue, as does a lack of course planners/meet directors.

We managed to put on some of our key highlight events – a New Year's Day event, a full determinator series and Spook-O. With a couple of additional events through the year.

Work begins to prepare for BCOCs in Fall 2024 and we have secured access to Camp Thunderbird. Currently looking for an available mapper to update the map this spring/summer.
